Field Day Candidates: 5 Fix-and-Flip Deals

Pre-screened Oct 20, 2026 for Field Day (Sun, Nov 1). Pick one with Dad on Mon, Oct 26, then confirm it in FMLS.

Big lesson up front: at the full asking price, **none of the 5 passes the 70% rule.** That is normal. Investors make money by offering *less*. The "Max offer" column shows the most you could pay and still pass.

Rank	Address	Area	Drive from Dacula	List price	Est. ARV	Est. rehab	Est. profit at list	Max offer (70% rule)
1	449 Hamilton E Holmes Dr NW, Atlanta, GA 30318	Atlanta (Center Hill, in-town)	~45 min (no traffic)	$145,000	$255,000	$56,000 (Heavy)	$20,650	$122,500
2	2430 Cheryl Lynne Ln, Atlanta, GA 30349	South Fulton (Hillandale, inner metro)	~55 min (no traffic)	$100,000	$250,000	$99,000 (Heavy)	$19,050	$76,000
3	976 Bernice Ct, Lawrenceville, GA 30045	Gwinnett	~15 min	$220,000	$350,000	$87,000 (Medium)	-$4,750	$158,000
4	915 Lake Dr, Snellville, GA 30039	Gwinnett (Norris Lake area)	~30 min	$202,000	$300,000	$88,000 (Medium)	-$32,540	$122,000
5	3159 Meadow Point Dr, Snellville, GA 30039	Gwinnett	~25 min	$274,900	$370,000	$75,000 (Light)	-$32,493	$184,000

Why this ranking: #1 and #2 are cheap in-town homes where the numbers come closest to working. #3 is the closest to home and a solid house, but the price is too high. #4 and #5 lose money at the asking price.

How I did the math (same for every deal)

- **ARV** (After Repair Value) = what the house should sell for once it is fixed up. It comes from nearby sold homes ("comps"). **Every ARV here is an estimate.**
- **Rehab** per square foot (estimates): Light = $25/sf (paint, floors, fixtures). Medium = $40/sf (adds kitchen and baths). Heavy = $60/sf (adds systems, roof, near gut).
- **Buying closing costs** = 2% of the price. **Holding costs** (loan interest, taxes, insurance, utilities) = 1% of (price + rehab) per month x 5 months. **Selling costs** (agent + closing) = 8% of ARV.
- **Profit** = ARV - (price + rehab + buying + holding + selling).
- **70% rule:** Max offer (MAO) = 70% x ARV - rehab. If the price is above the MAO, the deal is too thin.

#1. 449 Hamilton E Holmes Dr NW, Atlanta, GA 30318

Link: https://www.redfin.com/GA/Atlanta/449-Hamilton-E-Holmes-Dr-NW-30318/home/24762291

List price	Beds / baths	Sq ft	Year built	Days on market	Drive from Dacula
$145,000	3 bd / 1 ba	925	1950	~70 days (listed Aug 8, 2026)	~45 min (no traffic) (estimate)

Why it's a flip candidate: "Being sold as-is, this fixer-upper..." A small 1950 ranch near MARTA and the Westside, with a level 0.22-acre lot. Cheap to buy, and renovated 3-bedroom ranches nearby sell in the $260k-$300k range.

Sold comps:

- 1703 Barrett Dr NW (fully renovated 3/1, 1,000 sf): sold $264,000 (Aug 3, 2026)
- 2745 Marco Dr NW (3/2, 1,104 sf): sold $270,000 (sold in the last 6 mo)
- 620 Hamilton E Holmes Dr NW (move-in ready 3/2, 1,286 sf): sold $302,120 (Feb 19, 2026)

Estimated ARV: $255,000. A fully renovated 3/1 nearby sold for $264k, and 3/2s sold for $270k-$302k. With only 1 bath and 925 sq ft, I used about $255k. Adding a 2nd bath could push it higher.

Rehab estimate: Heavy, 925 sf x $60/sf = **$56,000** (estimate)

Item	Amount
Purchase (list price)	$145,000
Rehab	$56,000
Buying closing (2%)	$2,900
Holding (1%/mo x 5 mo)	$10,050
Selling costs (8% of ARV)	$20,400
Total cost	**$234,350**
ARV (estimate)	**$255,000**
Est. profit	**$20,650**

70% rule: 70% x $255,000 - $56,000 = **$122,500** max offer. List price $145,000 is **ABOVE** the max offer → **FAIL at list price**.

Check on site:

1. It sits on a busy road (Hamilton E Holmes Dr), which can lower the price. Watch traffic and noise.
2. Is there room to add a 2nd bathroom?
3. Walk the block: are other houses being fixed up, or are many boarded up?

#2. 2430 Cheryl Lynne Ln, Atlanta, GA 30349

Link: https://www.coldwellbanker.com/ga/atlanta/2430-cheryl-lynne-ln/lid-P00800000HIxPXSAoOGrDXVCc5nbPlvfPvCHxsqc

List price	Beds / baths	Sq ft	Year built	Days on market	Drive from Dacula
$100,000	3 bd / 1.5 ba	1,654	1972	4 days (relisted Oct 16, 2026; first listed Apr 2026)	~55 min (no traffic) (estimate)

Why it's a flip candidate: "Investors wanted... ready for a straightforward easy rehab... Sold As-Is." Only $60/sq ft on a half-acre lot. The lowest price of the 5.

Sold comps:

- 6445 Marsham Dr (3/2, 1,464 sf): sold $265,000 (sold in the last 6 mo)
- 3455 Ravenwood Dr (3/2.5, 1,650 sf): sold $265,000 (sold in the last 6 mo)
- 3020 Forestside Ln (4/2, 1,654 sf): sold $210,000 (sold in the last 6 mo)

Estimated ARV: $250,000. Same-size houses in 30349 sold for $210k-$265k. Ours has only 1.5 baths, so I used about $250k. I could not confirm how far away these comps are or what shape they were in.

Rehab estimate: Heavy, 1,654 sf x $60/sf = **$99,000** (estimate)

Item	Amount
Purchase (list price)	$100,000
Rehab	$99,000
Buying closing (2%)	$2,000
Holding (1%/mo x 5 mo)	$9,950
Selling costs (8% of ARV)	$20,000
Total cost	**$230,950**
ARV (estimate)	**$250,000**
Est. profit	**$19,050**

70% rule: 70% x $250,000 - $99,000 = **$76,000** max offer. List price $100,000 is **ABOVE** the max offer → **FAIL at list price**.

Check on site:

1. "Bring a flashlight": the power is off. Check the wiring, plumbing and HVAC first.
2. The seller requires their own closing attorney (Sherman & Phalen). Ask why.
3. The past listing expired in April. Ask what scared buyers off.

#3. 976 Bernice Ct, Lawrenceville, GA 30045

Link: https://www.redfin.com/GA/Lawrenceville/976-Bernice-Ct-30045/home/25095432

List price	Beds / baths	Sq ft	Year built	Days on market	Drive from Dacula
$220,000	3 bd / 2 ba (public record: 4 bd)	2,168	1977	73 days on Redfin (listed Jul 31, 2026; cut $30k on Oct 15)	~15 min (estimate)

Why it's a flip candidate: Listing says "needs some TLC", "sweat equity", "sold as is". Big house (2,168 sq ft) on a 0.54-acre lot priced at $101/sq ft. Nearby houses sell for $175-215/sq ft.

Sold comps:

- 978 Hilltop Ct (0.1 mi, 1,628 sf, 1977): sold $349,900 (Oct 16, 2026)
- 875 White Oak Ct (1.0 mi, 1,800 sf, 1972): sold $369,900 (Jul 10, 2026)
- 351 Cottonpatch Rd (0.7 mi, 1,944 sf, 1989): sold $340,000 (Jul 7, 2026)

Estimated ARV: $350,000. The 3 comps sold for $340k-$370k. Ours is bigger but older, with a septic tank and an asbestos-shingle roof, so I used the middle of the range: about $350k.

Rehab estimate: Medium, 2,168 sf x $40/sf = **$87,000** (estimate)

Item	Amount
Purchase (list price)	$220,000
Rehab	$87,000
Buying closing (2%)	$4,400
Holding (1%/mo x 5 mo)	$15,350
Selling costs (8% of ARV)	$28,000
Total cost	**$354,750**
ARV (estimate)	**$350,000**
Est. profit	**-$4,750**

70% rule: 70% x $350,000 - $87,000 = **$158,000** max offer. List price $220,000 is **ABOVE** the max offer → **FAIL at list price**.

Check on site:

1. Asbestos shingle roof: replace it? Get a quote (could add $15k+).
2. Septic tank: ask for an inspection/pump report.
3. Listing went pending and fell through twice. Ask the agent why.

#4. 915 Lake Dr, Snellville, GA 30039

Link: https://www.redfin.com/GA/Snellville/915-Lake-Dr-30039/home/24977954

List price	Beds / baths	Sq ft	Year built	Days on market	Drive from Dacula
$202,000	5 bd / 2.5 ba	2,209	1972	364 days on Redfin (13 price cuts)	~30 min (estimate)

Why it's a flip candidate: "Calling all investors!" The listing pitches it as a flip project. 4-sided brick, 2,209 sq ft at $91/sq ft, with lake community amenities (pool, fishing dock, $75/mo HOA).

Sold comps:

- 4477 Grier Dr (0.3 mi, 1,895 sf, 1978): sold $267,000 (Jul 22, 2026)
- 3802 Saddle Ridge Dr (1.9 mi, 2,126 sf, 1975): sold $349,900 (Aug 27, 2026)
- 4388 Bowman Way (0.2 mi, 1,992 sf, 2001): sold $352,500 (Jul 28, 2026)

Estimated ARV: $300,000. Comps range from $267k (the closest older home) to $352k. This area sells lower than the rest of Snellville, so I stayed conservative at about $300k.

Rehab estimate: Medium, 2,209 sf x $40/sf = **$88,000** (estimate)

Item	Amount
Purchase (list price)	$202,000
Rehab	$88,000
Buying closing (2%)	$4,040
Holding (1%/mo x 5 mo)	$14,500
Selling costs (8% of ARV)	$24,000
Total cost	**$332,540**
ARV (estimate)	**$300,000**
Est. profit	**-$32,540**

70% rule: 70% x $300,000 - $88,000 = **$122,000** max offer. List price $202,000 is **ABOVE** the max offer → **FAIL at list price**.

Check on site:

1. It went pending and fell apart 6 times. Find out why (inspection? appraisal? septic?).
2. Basement bedrooms: check for water, and egress windows so they count as legal bedrooms.
3. Septic tank, plus the HOA rules on rentals and flips.

#5. 3159 Meadow Point Dr, Snellville, GA 30039

Link: https://www.redfin.com/GA/Snellville/3159-Meadow-Point-Dr-30039/home/25014440

List price	Beds / baths	Sq ft	Year built	Days on market	Drive from Dacula
$274,900	4 bd / 2.5 ba	3,002	2005	84 days on Redfin (listed Jul 22, 2026; cut $50k on Oct 13)	~25 min (estimate)

Why it's a flip candidate: Listing calls it ideal "for investors, flippers" with the kitchen "ready for renovation". Newer house (2005) at only $92/sq ft, so the bones (roof age, HVAC) may need less work.

Sold comps:

- 4067 Rosebud Park Dr (0.7 mi, 2,600 sf, 2006): sold $370,000 (Jun 30, 2026)
- 4360 Ivy Lynn Pl (1.1 mi, 3,063 sf, 1993): sold $410,112 (Aug 14, 2026)
- 3807 Rosebud Park Dr (0.8 mi, 2,460 sf, 2007): sold $325,000 (Jun 1, 2026)

Estimated ARV: $370,000. Similar 2000s homes nearby sold for $325k-$410k. The closest match in size and age is $370k, so I used that.

Rehab estimate: Light, 3,002 sf x $25/sf = **$75,000** (estimate)

Item	Amount
Purchase (list price)	$274,900
Rehab	$75,000
Buying closing (2%)	$5,498
Holding (1%/mo x 5 mo)	$17,495
Selling costs (8% of ARV)	$29,600
Total cost	**$402,493**
ARV (estimate)	**$370,000**
Est. profit	**-$32,493**

70% rule: 70% x $370,000 - $75,000 = **$184,000** max offer. List price $274,900 is **ABOVE** the max offer → **FAIL at list price**.

Check on site:

1. Why did the price drop $50k? Look for hidden problems (foundation, water, mold).
2. How old are the roof and HVAC? A 2005 house may need both soon.
3. South Gwinnett HS is rated 3/10, so ask what buyers here will pay for.

Caveats

- All ARVs, rehab costs, profits and drive times are **estimates** built from public Redfin, Zillow and other listing-site data pulled Oct 20, 2026. Confirm the status, price and comps in FMLS on Oct 26.
- Comps for the two Atlanta homes come from zip-wide sold lists. I could not confirm their exact distance or condition. Pull tighter comps (within 0.5 mi, renovated, last 6 months) in FMLS.
- Drive times are rough no-traffic estimates from home in Dacula. #5 is a bit past the 45-minute target.
- No one has been inside any of these homes. Rehab could be much higher once you see them.
